

9093 Kettle in Silver & Blue

sku: 9093 B

The 9093 kettle, with bird-shaped whistle is one of the best-selling Alessi objects in the world. The design of this kettle, created by Michael Graves in 1985, mixes the influences taken from European Art, American Pop and quotes from pre-Columbian cultures. Graves's unique visual language is the reason behind the extraordinary success that the kettle has had since the year of its production. It is a smart object, elegant, but at the same time playful and fun: when the water starts boiling, the bird sings, leading to an inevitable smile.
