

Hudson Valley Lighting Heirloom Sconce - Historic Nickel

sku: 8000-HN-MS2

Our Heirloom family allows you to express your own personal style. All choices begin with our early-electric socket holders, which we cast to industrial standards. Details such as our monogram paddle switch add distinction. The included Edison-style carbon filament bulb is attractive on its own; it's equally so when paired with any of its various shade options. Each beautiful finish contributes toward a distinct look. Choose either a cloth-sheathed wire suspension or a metal stem attached to a hang-straight canopy. Optional wire bulb guards accentuate its industrial characteristics; they can be added with or without an accompanying metal shade.
