

## Hudson Valley Lighting Garden City Sconce - Aged Brass

*sku: 8321-AGB*

*Utility and luxury merge in our Garden City family. Hand-rubbed finishes that continue inside the shade make these adjustable sconces very attractive in their all-metal versions. Metal-rimmed white glass shades allow more light diffusion in another, equally appealing option. The former enhances its function as a task light; the latter amplifies its accent potential. Machined details such as the rings on the cast-metal backplate and the turned socket holder give Garden City a vintage industrial feel. We wire Garden City with an on/off switch, making it ideal for a bedside reading lamp or as a replacement fixture in historic homes that lack a separate wall switch.*
