

Hudson Valley Lighting Brockton 1 Light Table Lamp - Aged Brass

sku: L6627-AGB

A thick diamond-shaped alabaster shade is set on a square Aged Brass backplate. Light fills the stone and reflects beautifully off the visible metal corners behind, while the smooth lines and rounded edges give the sconce and flush-mount a soft, soothing feel. Brockton also makes for an architectural table lamp composed of two alabaster blocks stacked slightly askew underneath a white linen drum shade.
