

Leandro 1-Drawer Side Table - White

sku: NDA-110-09

With a sense of luxury influenced by French design, the Leandro 1-Drawer Side Table feels almost as if it were plucked from a Gilded Age drawing room. It emanates vintage glamour through modern construction, with elegantly rounded edges and a shining display of gold mesh on its side panels. Two interior shelves provide generous storage, while the transparent nature of the gilded mesh allows for the effortless display of what's inside. Thoughtful details, from gently angled feet to polished brass pulls, add to the Leandro's overall look of refinement and hint at the quality of craftsmanship. Finished in clean white lacquer, the side table is a standout for your next bedroom, living room, study or formal entry design.
